

SOUTH AUSTRALIAN RADIO YACHT CLUB Inc.

SAILING SITE SAFETY SURVEYS

The following items are to be adhered to by Club members at all times.

PRIOR TO SAILING AT ANY SAILING VENUE

Inspect areas for at least 30 metres each side of Launching Area for dangerous objects Eg. Broken glass, syringes, uneven surfaces or any item likely to be a danger or cause harm.

GENERAL CLUB SAFETY RULES

Life Jackets to be worn in the dinghy at all times and the dinghy is to be operated by a person holding a current Boat License.

Footwear to be worn at all times. Bare feet will not be accepted and members will not be allowed to sail until proper footwear is worn.

Handset antennae to be fitted with a protective knob on the end (Film container, practice golf ball or similar).

EXISTING SAFETY CONCERNS

TIRANNA WAY, WEST LAKES

Exercise caution with the following items that exist at the site;

Slipping on wet concrete boat ramp

Drop from concrete path to sand below concrete wall

Height difference between grassed area and concrete pathway

Hollows in sand along water edge

Boat skippers and Officials to keep concrete path clear at all times and ensure that handset antennae do not protrude over pathway.

MAWSON LAKES

Exercise caution with the following items that exist at the site;

Steps from main deck to lower launching area

Your position relative to the lakes edges

Possible protruding nail heads in timber decking

Buoy line winders to have red 'Witches Hats' located with them to provide warning to pedestrians.

As we are sharing the timber deck with the public care must be taken to avoid a collision with other users - be especially careful of children.

REMEMBER - "SAFETY FIRST AT ALL TIMES"
